## Eco Pine

**DESCRIPTIONS:** **Eco Pine** contains premium pine oil which is an excellent all-purpose disinfectant, cleaner and deodorizer that leaves behind a pleasant fresh pine aroma atmosphere.

**APPLICATIONS:** It is recommended for use in places such as toilets, restrooms, changing rooms, drains and waste receptacles, etc. **Eco Pine** is highly effective in controlling odors resulting from vomits, urines and feces. It helps to reduce risk of cross-infections in public areas such as childcare centre, kindergartens, schools, hospitals, nursing homes, etc. where high standards of hygiene and cleanliness are essential.

### ADVANTAGES:

- **Superior Disinfecting and Cleaning Power**  
Its high concentration and deep penetration formula makes it an excellent disinfectant and cleaner.
- **Effective Virucide and Germicide**  
Highly effective against a wide range of gram-positive and gram-negative bacteria such as Pseudomonas Aeruginosa, Staphylococcus Aureus, Salmonella Typhosa, Legionella Pneumophila and Escherichia Coli.
- **Safe on Most Surfaces**  
Can be used on glass, metal, glazed porcelain, linoleum, tiles, smooth leather, vinyl, enameled and finished wood surfaces.
- **Economical**  
High concentration allows dilution up to 20 parts of water for disinfecting and cleaning. For general applications, it can be diluted up to 40 parts of water.

### DIRECTIONS:

1. Dilute **Eco Pine** with water as required  
Cleaning: Dilute 90-360ml of **Eco Pine** to 4 litres of water  
Disinfecting: Dilute 180-225ml of **Eco Pine** to 4 litres of water  
Deodorizing: Dilute 450-500ml of **Eco Pine** to 4 litres of water
2. **Eco Pine** can be applied by sponge, cloth, mop or spray.
3. Pre-cleaning is recommended for heavily soiled areas.
4. For effective disinfecting, solution must remain on surfaces for 10 minutes.

### PROPERTIES:

Type: Concentrated Pine Oil Disinfectant Deodorant  
Flammability: Non Flammable  
Composition: Pine Oil (a phenolic compound), surfactants and emulsifiers
