Eco-Viro

DESCRIPTIONS: **Eco-Viro** is a Hospital-grade disinfectant, deodorant, fungicide, and virucide that reduces and controls airborne bacteria and virus particles. It is effective against a broad spectrum of gram negative and gram positive organisms that helps to prevent cross-contamination of germs and bacteria.

APPLICATIONS: **Eco-Viro** is widely used in hospitals, clinics, schools, institutions, hotels, nursing homes, restaurant, offices, commercial areas etc. It can also be used to disinfect and deodorize all hard surfaces including table-tops, chairs, toilets, floors, walls, air-conditioning etc.

ADVANTAGES:

- **CONTROLS SPREAD OF VIRUSES**
Eco-Viro not only aids in controlling and reducing spread of virus infections but also reduces the hazard of cross-contaminations. **Eco-Viro** offers residual protection and is extremely effective in controlling most viruses.
- **HIGHLY EFFECTIVE DISINFECTANT AND SANITIZER**
- It kills germs on surfaces with its powerful actions that work on frequently handled objects which may spread disease-causing particles. **Eco-Viro** reduces the hazard of cross infection by bacteria from the environmental surfaces as well as in the air.
- **KILLS AIRBORNE GERMS, VIRUSES, AND BACTERIA**
Many diseases are spread through the air by coughing, sneezing, and sniffing. The spread of the airborne viruses and germs that cause epidemics can be drastically reduced with **Eco-Viro**
- **READY TO USE**
Eco-Viro is ready to use and it saves time in mixing.
- **MILDEW CONTROL**
Eco-Viro helps to prevent growth of mold and mildew on surfaces.

Effective: Tuberculocidal, Staphylocidal, Bactericidal, Fungicidal, Pseudomonicidal.
against Trichophytonmentagrophytes(athlete's foot fungus).
Mold and mildew control. Virucidal against Influenza A/Brazil, Herpes Simplex and Vaccinia on inanimate environmental surfaces. Sanitizer against Staphylococcus aureus and Kiebsiella pneumoniae, and other micro-organisms.

Its powerful disinfecting action works on frequently handled objects which may spread disease-causing organism. If used as directed, it also disinfects pre-cleaned, hard non-porous surfaces against Staphylococcus Aureus, Salmonella Choleraesuis and Pseudomonas Aeruginosa, thus meeting requirements for hospital use. **Eco-Viro** is also effective against other common viruses such as the "**Hong Kong flu**", **Influenza**, **Coronavirus**, **HFMD**, etc.

DIRECTIONS:

Eco-Viro can be used as manual spraying as well as misting application with the help of Hurricane Ultra Mist ULV Sprayer. When misting, spray **Eco-Viro** towards ceiling until light fog covers area.
For Hard Surfaces e.g. table tops, chairs sinks, cabinets etc: Recommend weekly treatment.
Spray over surfaces, let contact stay for 3-5 minutes before wiping off.

Caution: Before using **Eco-Viro**, remove or cover all food and food packaging materials. Treated food contact surfaces and equipment must be thoroughly cleaned and rinse with potable water prior to use.
