Swop Clean

DESCRIPTIONS: **Swop Clean** is a highly concentrated all-purpose surface renovator for use on all environmental surfaces such as grease, oil, ink, stains, adhesives and wax.

APPLICATIONS: **Swop Clean** is designed to be used on all surfaces water will not harm. It is used in schools, hospitals, restaurants, industrial plants, and wherever a safe, deep cleaning renovator is desired. **Swop Clean** is widely used to remove rubber scuff marks from the floors, stains on wall, remove stains on table and chairs, clean air-conditioning systems, hoppers and kettles in the brewing and distilling industries, etc.

ADVANTAGES:

- **POWERFUL AND HIGHLY EFFECTIVE**
Swop Clean has a superior renovating power that breaks down dirt, sludge and grime that bond to surfaces.
- **NON-FLAMMABLE**
Swop Clean does not contain hydrocarbon solvents and is non-flammable.
- **MULTI-PURPOSE**
It renovates on wood, vinyl, plastic, metal, rubber and most water surfaces safely with maximum effectiveness.
- **CONCENTRATED & ECONOMICAL**
Swop Clean is highly concentrated and can be diluted; thus helps to save costly labour time.
- **BIODEGRADABLE**
It is completely biodegradable, environmentally safe and will not contribute to water pollution.
- **SAFE TO USE**
Swop Clean contains rust inhibitors and is safe on most metal surfaces including aluminum and stainless steel. It is non-corrosive and does not emit harmful fumes.

Directions to use:

1. **Swop Clean** can be sprayed with a trigger sprayer onto a wide variety of hard surfaces to remove soils and wiped clean with damp cloth.
2. For Walls, Woodwork, Tile, Porelain, Enamel, and Metal Surfaces: Dilute 1 to 10 parts of water.

Physical Characteristics:

Appearance:	Blue liquid solution.
Odour:	Mild
pH:	13
Composition:	Corrosion inhibitor, penetrant and biodegradable surfactants.
